Emerging Defence, Maritime and Aerospace Technologies

COMMANDER (DR) JAYAKRISHNAN N NAIR

The defence, maritime and aerospace industry is on the verge of a major expansion in this country for the next 20 years. The Government of India and academia have started giving more impetus to associated learning to boost up the growth in the defence sector. The 29 articles being presented in this book by scholarly veterans are a priceless contribution of their knowledge and wisdom which they have harnessed during their meritorious service in the armed forces and after leaving service. Most of the writers are currently in the academic profession and teaching at various universities in India.

Commander (Dr) Jayakrishnan N Nair (Retd, Indian Navy), leading consultant in Defence, Aerospace and Maritime. He is an electronics engineer by profession and specialised in avionics and aerospace systems. He has served the Indian Navy for 25 years and was responsible for successful planning, execution and delivery of several projects and assignments across diverse segments.

Contents

1. Pulse Detonation Engines- Future of Aerospace Propulsion
2. Digital Underwater Data Storages
3. Augmenting Naval and Maritime ISR through IR 4.0 Technologies
4. Cube Satellites- Rocketry Simplified
5. Offshore Renewable Energy Infrastructure
6. Military Lasers - A Future Market Perspective
7. Indigenisation-Innovation Architecture-Indian Navy
8. Challenges in Deploying Autonomous Weapon Systems
9. Laser Dazzlers - Defence and Security Applications
10. Hypersonic Program of India: Hype or Rewarding
11. Wearable for Soldiers
12. Drone Attacks - 12 ways to Defend
13. Military Drones-15 New Found Applications
14. Mitigating Drone Threats
15. LAWS - Challenge to Humanity
16. Disruption of Military Warfare
17. 6G Technology of China: Impact on Indian Military
18. Development of Fully Autonomous Military Systems
19. Algorithmic Warfare
20. Electromagnetic Propulsion for Military and Space Applications
21. VLSI Talent and Issues- India-Specific Overview
22. Hypersonic Weapons - A Boon for India's Future Defence Capabilities
23. Swarm Technology in Drones - Towards Self-reliance
24. AI Technology in the Military Transformation of Future Warfare
25. Deepfakes And Shallowfakes
26. 'Smart Ship' Construction Takes Roots in India
27. Smart Couture: Customized Military Clothing
28. Network Centric Warfare and Emerging Communication Technologies
29. Impact of Emerging Technologies on Naval Defence
